

Management Development Modules

A manager's time is constantly in demand for a number of differing sources. It can be hard to find the time to maintain and update the skills, knowledge and behaviours required to today's ever changing business environment.

To address this problem U Flourish has developed a number of 3 hour modules that are;

- Flexible enough to be delivered within a manager's working day.
- Two sessions can be run in one day so more managers have the opportunity to participate.
- Delivered in small groups to generate discussion and interaction.
- No manager needs to spend a whole day away from the operation.
- No travel time or cost involved as we come to you.
- Pre and post module activities ensure maximum benefit from the 3 hour learning session

Stop The Clock
